CARING FOR HARRIS COUNTY'S AGED

This home institution, one of the finest of its kind in the South, safeguards the future of 77 aged persons, who in the declining years of their life otherwise would have no means of support. The home is brand new, located eight and one-half miles from Houston, on the Crosby road, and is equipped with electric lights, steam heat, hot and cold water. It had its beginning in 1894.
