Sheriffs Department**

LT. Larry Moore

APPLICATION FOR REGION 51

Mr. Douglas Frankhouser, Chairman
NPSPAC Region 51

Dear Chairman Frankhouser:

Brazoria County Sheriffs Department 700MHz application.

Brazoria County requests the assignment of twenty (20) radio channels by Region 51 for the aid in expansion of the Regional Project 25 (P25) trunked radio system. The addition of these frequencies are required to provide the coverage and loading for the growing number of users in this area of the regional P25 radio system.

These 20 frequencies we are requesting will be used at existing sites and for system expansion by adding additional sites to increase capacity for users to the system. **This also complies with the new Region 51 700 mhz. plan verbally agreed upon between Harris County, City of Houston, Brazoria County, Galveston County and Wharton County.**

The requested frequencies are needed to establish a P25 interoperable communication system between Brazoria County and the existing Regional System. The P25 digital system is designed to bring the regional communications to the highest level of interoperable communications available.

The appropriate APCO, FCC forms and coverage maps have been completed and are attached. Coverage maps follow TIA/EIA TSB 88 guidelines and include interference area studies.

Equipment has been purchased and installed awaiting frequencies. The sites have been approved with grant funds and are in the process of being ordered.

Implementation will be completed within twelve (12) months after the FCC has authorized the request of frequencies.

Sincerely,

Larry Moore, Lieutenant
Brazoria County Sheriff's Department

This letter is to inform Region 51 that Brazoria County will allow Harris County Regional Radio to coordinate the use the specified frequencies below in the other parts of the Region. Frequencies that are licensed to a particular agency will still belong to that agency, but could be used in another part of the region. Below are the frequencies that are currently licensed to Brazoria County and the ones that will be assigned to Brazoria County for use. We understand the reason that these frequencies are being rearranged in the region is because of the City of Houston and Harris County will be going from FDMA to TDMA formats. And the new arrangement will cause less chance of interference in this region and to the adjacent regions.
