***APPLICATION FOR REGION 51***  
***700 MHz RADIO SPECTRUM***

Presented by Harris County Regional Radio Center  
Craig Bernard, Managing Director of Communications

Mr. Douglas Frankhouser, Chairman  
NPSPAC Region 51

Dear Chairman Frankhouser:

Harris County ITC Regional Radio Center 700MHz application.

Harris County respectfully requests the assignment of twelve (12) radio channels by Region 51 for the expansion of our existing regional Project 25 (P25) trunked radio system. The addition of these frequencies is required to provide the coverage and loading for the growing number of users in this regional P25 radio system. **This is for the Harris County Simulcast that consists of the Gessner tower, Wallisville tower, Criminal Justice Center and T.Boone Pickens building. We are requesting to file for a Special Temporary Authority while waiting for the modification of the call sign WQKN299. So we can remove the Lockwood location and replace it with the Criminal Justice Center at 1201 Franklin at a 2.1 miles difference, this will not affect our coverage at all.**

The P25 regional system has been established in Walker, Matagorda, Galveston, Montgomery, Fort Bend, Brazoria, Liberty Counties. Chambers County has recently joined the Regional P25 system; these 18 frequencies we are requesting will be used at existing sites and for system expansion by adding additional sites to increase capacity for users to the system.

The requested frequencies are needed to establish a P25 interoperable communication system for migration of the existing 40000 analog users to the P25 digital system. The P25 digital system is designed to bring the regional communications to the highest level of interoperable communications available.

The appropriate APCO, FCC forms and coverage maps have been completed and are attached. Coverage maps follow TIA/EIA TSB 88 guidelines and include interference area studies.

Equipment has been purchased and installed awaiting frequencies. The remaining simulcast sites have been approved with grant funds and are in the process of being ordered.

Implementation will be completed within twelve (12) months after the FCC has authorized the request of frequencies.

Sincerely,

Bruce High, Chief Information Officer
