**APPLICATION FOR REGION 51  
700 MHZ RADIO SPECTRUM**

Presented by Harris County Radio Services

Craig Bernard, Director, Radio Services

Dear Chairman Frankhouser:

Harris County ITC Regional Radio Center 700MHz application.

Harris County respectfully requests the reuse of twelve (12) radio channels by Region 51 for the expansion of our existing regional Project 25 (P25) Simulcast trunked radio system. The addition of these sites required to provide the coverage and loading for the growing number of users in this regional P25 radio system. **This on behalf of the City of Houston using Harris County Frequencies by adding following site to their existing Southeast simulcast system:**

**Pasadena Tower**

The P25 regional system has been established in Walker, Matagorda, Galveston, Montgomery, Fort Bend, Brazoria, and Liberty Counties. Chambers County has recently joined the Regional P25 system; these 12 frequencies we are requesting will be used at existing sites and for system expansion by adding additional sites to increase capacity for users to the system.

The requested frequencies are needed to establish a P25 interoperable communication system for migration of the existing 40000 analog users to the P25 digital system. The P25 digital system is designed to bring the regional communications to the highest level of interoperable communications available.

The appropriate APCO, FCC forms and coverage maps have been completed and are attached. Coverage maps follow TIA/EIA TSB 88 guidelines and include interference area studies.

Equipment has been purchased and installed awaiting frequencies. The remaining simulcast sites have been approved with grant funds and are in the process of being ordered.

Implementation will be completed within twelve (12) months after the FCC has authorized the request of frequencies.

Sincerely,

Bruce High, CIO & Executive Director of ITC.
