October 1, 2013

Doug Frankhouser, Chairman
Region 51 Regional Planning Committee

Mr. Frankhouser,

The Galveston County Emergency Communication District (GCECD) is in the process of completing a new tower site in Texas City, Texas. The plan is to move the analog frequencies currently licensed at a leased site to the new site that is being built. GCECD would like to request a Special Temporary Authority (STA) in order to bring up the analog system at the new tower site while the permanent license is being processed.

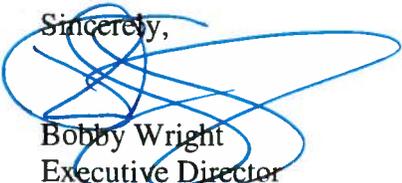

The existing site is located at 3210 38th St. N, Texas City, Texas and the new site is at 5701 Attwater Ave in Texas City, Texas.

The frequencies involved in this request are;

853.8000
853.5875
853.3375
853.0625
852.5625
852.3375
852.0875
851.8125
851.5875
851.4125
851.0625
851.1250
851.3375
851.6250
853.3000
851.9625

Your consideration of this request is greatly appreciated.

Sincerely,

Bobby Wright
Executive Director

Galveston County Emergency Communication District
