Harris County believes its comprehensive and community-based approach to solving the complex socio-economic ailments within the County is the most effective way to stimulate private reinvestment in the County's most underserved areas. The PY2014 Annual Action Plan (AAP) is the County's blueprint for facilitating change within lower-income communities and ultimately improving the quality of life in Harris County.

Introduction

The AAP is the annual update to the five-year Consolidated Plan, which sets forth Harris County's long-term community development goals and strategies. Program Year 2014 is the second year of the PY2013-PY2017 Consolidated Plan for Harris County. The AAP process has been specifically created to assist in mapping one-year actions for community development and making good use of available federal, state, and local resources.

In addition, the AAP details the allocation of Harris County resources and entitlement grants, allocated by HUD, toward improving the quality of life for Harris County residents. Resources reported in this document will be available between March 1, 2014 and February 28, 2015.

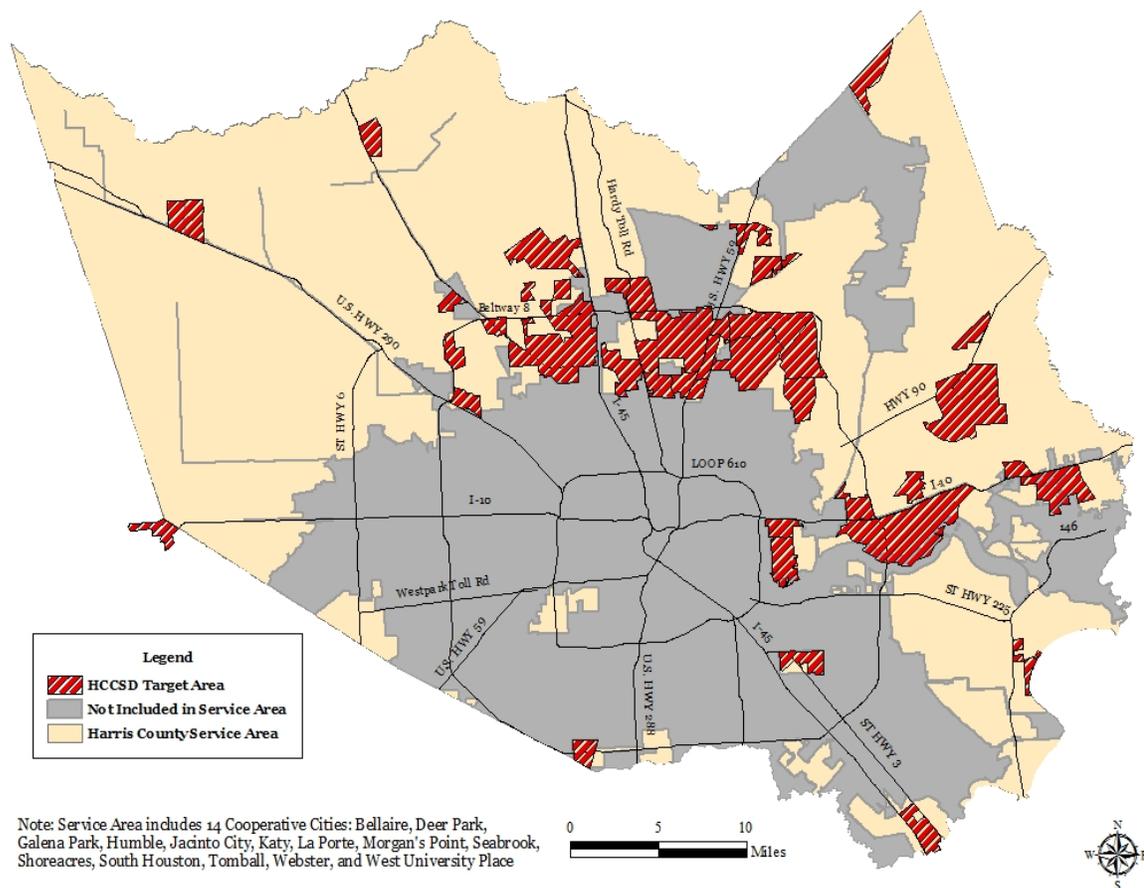

The majority of these resources are utilized within Harris County's Service Area (*Map 1*), which includes unincorporated Harris County and fourteen smaller cities within the County which have signed cooperative agreements with Harris County. The cities of Baytown, Houston, Missouri City, Pearland, League City, and Pasadena are entitlement communities that utilize their own community development resources and, therefore, are not within the Harris County service area.

Resources available through the County are almost exclusively dedicated toward improving the living conditions for low-income individuals. Low-income is defined as earning less than 80 percent of the median family income (MFI). The MFI for the Houston, Texas, Primary Metropolitan Statistical Area is \$66,200 for a family of four. *Table 1* denotes MFI limits for FY2013.

Table 1: FY 2013 Median Family Income (MFI) Limits*

Income Levels*	% of MFI	Amount
Extremely Low Income	0-30%	\$19,850
Very-Low Income	31-50%	\$33,100
Low Income	51-80%	\$52,950

The AAP is a public awareness and strategy development document required by HUD for any jurisdiction receiving entitlement grants - funds allocated to participating jurisdictions based upon a formula of population and poverty characteristics. In fact, the AAP is only one part of an extensive community development process designed to plan long- and short-term solutions for improving the lives of low-income individuals. This process has been specifically developed to assist in creating strategies for community development and making proper use of available resources.

Importance of the Annual Action Plan

The large majority of resources discussed within the AAP are derived from federal tax dollars. This alone warrants a need to use funds and other resources in a prudent manner. The AAP serves as a report to HUD and the general public of the anticipated manner in which resources made available through tax dollars will be utilized and provides an additional forum for community input into the community development process.

Further, the AAP provides a means by which HUD can ensure proper and efficient use of resources. By requiring the AAP, HUD not only has an opportunity to review for appropriate use of funds, but also has a benchmark document by which Harris County's performance can be evaluated.

The AAP includes a discussion of available resources, an explanation of the allocation process, a summary and brief analysis of proposed allocations, and strategies for monitoring appropriate use of those resources. Each topic is further divided and discussed as necessary to make the process understandable to members of the general public.
