

ROUND 1 HOUSING DISASTER RECOVERY PROGRAM (HDRP) SINGLE FAMILY REHABILITATION

Harris County's HDRP has served residents in communities such as Baytown, La Porte, Highlands, Humble and South Houston. To date, approximately 500 homeowners living in Harris County (but outside of the City of Houston) have received disaster recovery assistance for their Ike damaged homes. Roughly half of approximately 500 homes have been torn down and totally reconstructed on the homeowners' existing property. The remainder have undergone rehabilitation. All homes were completed May 2014.
