

*ADHD Medication:
Tried and True and What's New*

Featuring Aaron H. Fink, M.D.
Thursday, October 22, 2009 - 6:30-8:30 pm
St. Andrews Presbyterian Church, Room 213
5308 Buffalo Speedway, Houston, TX 77005
www.sapch.org

Topic

Medication plays a central role in the management of AD/HD and related conditions. This seminar will address the potential benefits and risks associated with various medications. Both standard and off label uses of various medications will be discussed. Management of side effects and new medications will be discussed. Time will be offered for question and answer.

Objectives

Participants will:

- have a basic understanding of standard medications for ADHD and related conditions
- have knowledge of the management of side effects.
- be able to discuss the use of off label medication for ADHD and related conditions

About the Speaker

Dr. Fink is a child, adolescent and adult psychiatrist in private practice in Houston. He is a founding member of the ADDA-SR Professional Advisory Council. He works both psychopharmacologically and psychotherapeutically with individuals of all ages that suffer from AD/HD. He has teaching appointments at Baylor College of Medicine and the University of Texas Health Science Center at Houston. He is Past President of both the Houston Psychiatric Society and the Houston Group Psychotherapy Society.
